2024 PIT-UN Year 6 Network Challenge Grant Application

Is your institution a 2019, 2020, 2021, 2022 or a 2023 Network Challenge Grantee? *

- 2019 Y1 Grantee
- 2020 Y2 Grantee
- 2021 Y3 Grantee
- 2022 Y4 Grantee
- 2023 Y5 Grantee

By checking this box, I understand that our institution cannot request expansion/scale (renewal) for any grant we have an active no-cost extension. By checking the box, I understand that is ongoing or has an active no-cost extension. No cost extensions and open grants limit the number and type of applications our institution can submit.

Projects ineligible to apply for funding in this challenge are Year 4-2022 with active no-cost extensions or Year 5-2023 Network Challenge Projects that have not submitted their projects final reports (narrative and budget reconciliation)

Please select the institution that will be identified as the Primary Institution that will be receiving grant funding *

Select...
Project Title--Unique Identifier for this Grant Application *

The answer to the next question will be used to create a unique identifier for this submission and project. The unique identifier in this step will follow the application form submission through grant management and project reporting if accepted.

We need all submissions to follow the same naming convention, Member Institution code from the chart below **HYPEN** Type of submission (N=new, E=Expansion) AND if the project also is a (DS=Data Science**) SPACE Submission Name.

You MUST start your proposal with the recognized 3 or 4-letter institution abbreviation associated with your institution (view the codes in the chart below)

**EXAMPLES OF PROPOSAL - PROJECT NAMING CONVENTION**

- **New Project Example:** My university is the Colorado Community College System (CCCS) and this will be my first submission of a data project titled Data Anomalies in Justice. My proposal submission name would start with CCCS-N Data Anomalies in Justice.

- **New Data Science Project Example:** My university is the University of Mississippi (UMIS) and this will be my first submission of a new project for my institution the title Exploration of AI Data in PIT. My proposal submission name would be UMIS-NDS Exploration of AI Data in PIT.

- **Expansion/Scale Project Example:** My university is the University of New Mexico (UNM) and this will be my third submission that is an expansion of a previous project with the title
Fellowships in PIT Environmental Justice. My proposal submission name would be **UNM-E Fellowships in PIT Environmental Justice**.

**The difference** between data projects and data science projects:

- **Data projects** use data to solve problems and spot trends. They work with the data as a snapshot of what exists now. Data analysis collects, stores, and maintains data and analyzes results.
- **Data science projects** use algorithms and machine learning to improve the ways that data supports organizational goals. Data scientists model data to make predictions, identify opportunities, and support strategies. They use data to understand the future.

I confirm I have entered the Project Name according to the format * requested

Before checking this box, make sure the project is named according to the format listed above.

Add the Principal Investigator to this Application within the Submittable Platform

*We ask that you please add the Principal Investigator to this application (https://submittable.help/en/articles/3654810-how-can-i-invite-people-to-collaborate-with-me-on-a-submission) as a Collaborator so we can maintain contact with them throughout the grant application and throughout the grant period. Follow the directions below to add the Principal Investigator to this application.*

**In the upper right-hand corner** of this application, you will see a link *Invite Collaborators*. Click on *Invite Collaborators*. A Dialog box will appear, asking you to enter the email addresses of your collaborators. Enter those addresses, then click *Invite*.

Invited collaborators will receive an email, letting them know you’ve invited them to collaborate on a draft submission using Submittable.

After you’ve sent invitations to collaborate, you can click on the *Invite Collaborators* link again anytime to see the status of your invitations. In the row for each invitee who has not yet accepted their invitation, you will see a Pending indication. There will also be a trash can next to each person’s name so that the *Submission Owner* can remove anyone that they no longer want to collaborate on the submission.

The *Submission Owner* is always the person who has sent invitations and will be the only user who can submit the application after it is completed by the group. Collaborators will be able to contribute responses and save drafts at any time.

Please select the Principal Investigator's Institution (This will also be the institution that will be considered the Fiscal Manager for the grant and
MUST be a PIT-UN member in good standing) *

A person may be listed as the Principal Investigator (PI) on only one Challenge application, but individuals may be listed as collaborators on multiple applications.

Please add the primary Principal Investigator's name *

First Name

Last Name

A person may be listed as the Principal Investigator (PI) on only one Challenge application, but individuals may be listed as collaborators on multiple applications.

Please add the Principal Investigator's title and department for the project on this application (10 word limit) *

Please add the Principal Investigator's email *

e-mail@example.com

Will this project have a Co-Principal Investigator? *

- Yes
- No

⚠ If your project will include interacting or communicating with minors (individuals under the age of 18) you are required to submit the NVF Child Safeguarding Policy Information Sheet and acknowledge that you have done so.

Project Summary (250 word limit) *

Project Start Date *

The grant term starts on October 1, 2024, so the project should start then and before the project end date of January 30, 2026.

Project End Date *

The project must end by January 30, 2026.

Will this grant be used to support work that includes interacting or communication with minors (individuals under age 18)? *

Yes. grant be used to support work that includes interacting or communication with minors (individuals under age 18)

No

If your project will include interacting or communicating with minors (individuals under the age of 18) you are required to submit the NVF Child Safeguarding Policy Information Sheet and acknowledge that you have done so.

NVF Child Safeguarding Policy Information Sheet *

Choose File
Upload a file. No files have been attached yet.

Acceptable file types: .doc, .docx, .odt, .pdf, .rtf, .txt, .wpd, .wpf, .epub

NVF Child Safeguarding Policy Information Sheet can be found on the PITcases.org site (http://pitcases.org/2022-challenge)

I acknowledge that I have uploaded the NVF Child Safeguarding Policy Information sheet. *

☐ Yes

Will any part of this grant funding be used to conduct lobbying as defined by federal tax law? *

☐ Yes  ☐ No

**PROJECT INFORMATION**

Proposals that received funding from the PIT-UN Challenge in 2019 or 2020 and have received two (2) additional years of funding are not eligible to apply for additional funding.

Proposals that received funding from the PIT-UN Challenge and have only received one year of additional funding in either 2020, 2021 or 2022 may apply for additional funding this year to continue and/or scale their project.

**Proposals with a Significant Data Science Component**

The Challenge Fund recognizes that proposals for projects with significant data collection and interpretation will be characterized as Data Science projects that may require expert evaluation/review. Therefore, if your proposal falls under the definition of Data Science, you will be asked to answer an additional set of questions as indicated.

Note Data Science projects will not receive special or additional consideration and will not be prioritized above other

**IDENTIFICATION OF GRANT PRIORITY AREAS AND ISSUES**
Select the Network Challenge priority area(s) your project addresses (select one). *

- Educational Offerings
- Career Pipeline and Placement

Select the Primary issue area that most closely matches the issue area of the proposal you are submitting seeks to address. *

- Access & Digital Divide & Digital Literacy
- Algorithms
- Apprenticeships
- AI - Artificial Intelligence
- Clinic, Labs, & Institutes
- Collectives & Communities of Practice
- Crisis & Disaster Response
- Cybersecurity
- Data & Algorithms
- Data Analytics
- Data Science
- Democracy & Voting
- Design (accessible, inclusive, participatory)
- Digital Privacy & Security
- Diversity, Equity & Inclusion
- Education Innovation
- Environment, Climate, & Sustainability
- Ethics

PARTNERSHIP

In this section, you are asked to list partners that you have formally engaged or plan to formally engage to undertake this project.

In a partnership, there is a **formal relationship defined by different partnership arrangements (MOU, MOA, Letters of Commitment)** where there is more of a co-mingling of resources. Individuals retain their authority, and a separate structure is developed to oversee or manage the engagement. *Note that you should upload letters of commitment from all named partners with this application. (There are six fields to list partners.)*

What is the difference between a partner and a collaborator? In a partnership, there is a formal relationship where there is more of a co-mingling of resources defined by different partnership arrangements (MOU, MOA, Letters of Commitment). Principal investigators retain their authority and maintain a separate structure to oversee or manage the engagement with specific or identified contributions.

A collaborator has an **informal relationship** with an agreed-upon way to make decisions yet operates independently. Collaborators retain their autonomy and have complete control over the individual resources they bring to the table.

Questions to answer for each partner:
Describe how you have cultivated a meaningful and equitable relationship with the partner entity. See “Evaluation Criteria” for guidance on meaningful and equitable partnerships. (200-word limit)

Describe why the partner’s involvement is essential to the project and how the partnership will operate, including division of work, role of principal investigators, and allocation of funds. (100-word limit)

Does your proposal have or will have partners? *

☐ Yes, we have formally engaged one or more PIT-UN institution(s) as partners for this project.

☐ Yes, we have formally engaged non-PIT-UN education institution(s) as partners for this project.

☐ Yes, we have formally engaged non-profit, private or governmental partners for this project.

☐ No, this proposal has not formally engaged partners or will not engage partners in this project.

This question is multiple selection. If you select more than one type of partner, you will fill out information on each type of partner. You will also be required to submit letters of commitment, MOA, or MOUs for each partner. Partners listed without letters of commitment, MOA or MOUs will be evaluated the same as those proposals that have not engaged partners in the project.

Please select the PIT-UN member institution(s) that will be a partner in this project AND will be receiving grant funding. Select all that you have a formal agreement to share funding. *

Is the member a Minority Serving Institution or a Historically Black College or University? *

Yes  No

Describe how you have cultivated a meaningful and equitable relationship with the partner(s). Please describe how the partnership will operate, including division of work, role of Principal Investigators, and allocation of funds. (200 word limit) *

- Brief description of the partner institution's mission and work and how it contributes to the project
- Description of the role the partner will play on the project and how the partnership would enhance or expand the impact of the project
- A list of deliverables that the partner institution will be responsible for (if applicable)
- The amount of monetary support the partner will provide (if applicable)

Describe why this partner's involvement is essential to the project, how the partnership will operate, including division of work, role of Principal Investigators, and allocation of funds.* (100 word limit)

Partnership letter of commitment, MOU, MOA...etc. (maximum upload of 4 files) *

Select up to 4 files to attach. No files have been attached yet. You may add 4 more files.
PROJECT COLLABORATORS

What is the difference between a collaborator and a partner?

A collaborator has an informal relationship with an agreed-upon way to make decisions yet operates independently. Collaborators retain their autonomy and have complete control over the individual resources they bring to the table.

In a partnership, there is a formal relationship defined by different partnership arrangements (MOU, MOA, Letters of Commitment) where there is more of a co-mingling of resources. Individuals retain their authority and a separate structure is developed to oversee or manage the engagement.

A person may be listed as the Principal Investigator (PI) on only one Challenge application, but individuals may be listed as collaborators on multiple applications.

Proposals that are a collaboration between two or more universities should submit one single application, explaining the nature of the collaboration in their application.

Does this proposal have any collaborators? *

PROJECT INFORMATION, OBJECTIVES, PLAN, OUTCOMES, AND DELIVERABLES

Proposals with a Significant Data Science Component

The Challenge Fund recognizes that proposals for projects with significant data collection and interpretation will be characterized as Data Science projects that may require expert evaluation/review.

Therefore, if your proposal falls under the definition of Data Science, you will be asked to answer an additional set of questions as indicated. Note Data Science projects will not receive special or additional consideration and will not be prioritized above other

I am submitting a Challenge proposal for: *

- [ ] A New Project
- [ ] Additional Funding to expand or scale an existing Network Challenge project

*Note: Proposals that received funding from the PIT-UN Challenge in 2019, 2020, 2022 and have received 3 rounds of funding for the project are not eligible to apply for additional funding to continue and/or scale the project.

Proposals that received funding from the PIT-UN Challenge and have only received one year of additional funding in either 2020, 2021, & 2023 may apply for additional funding this year to continue and/or scale their project.

Describe your project in one (1) sentence--Elevator Pitch (25 word limit) *
PROJECT PLAN

Describe your proposed project, including:

1. Objectives
2. Method and process to meet those objectives
3. Evaluation plan with measurable outcomes and/or indicators of success
4. Timeline

Project Plan (750 word limit) *

Describe your proposed project, including:

1. Objectives
2. Method and process to meet those objectives
3. Timeline

Evaluation Plan: Describe the projects measurable outcomes, indicators of success and any anticipated open educational resources. (200 word limit) *

I identify my project is: *

- NOT a Data Science project
- a Data Science project

Proposals with a Significant Data Science Component
The Challenge Fund recognizes that proposals for projects with significant data research components and/or projects that will involve the collection and interpretation of data characterized as a Data Science project may require expert evaluation/review. Therefore, if your proposal falls under the definition of Data Science you will be asked to answer an additional set of questions as indicated.

**Note:** Data Science projects will not receive special or additional consideration and will not be prioritized above other applications.

---

**IMPACT**

In this section, you will be asked to describe the rationale for the project including the measurable impact on the participants and PIT. That is, please explain how the project appears likely to meaningfully advance the field of Public Interest Technology and further the goals stated in this RFP. It will be helpful to list the assumptions the project is making about its work, its prioritized activities, and its intended impact over time.

Please describe the rationale for the project. That is, please explain how the project appears likely to meaningfully advance the field of Public Interest Technology and further the goals stated in this RFP. It will be helpful to list the assumptions the project is making about its work, its prioritized activities, and its measurable impact over time. (500 word limit) *

Limit: 500 words

---

**Justice, EQUITY, DIVERSITY, AND INCLUSION**

You will be asked to answer the following questions to the fullest extent you are able.

**Question 1:** Please define or describe the target community of your project (250-word maximum)

**Question 2:** Please describe how the demographics of those benefiting from the project compared to the demographics of the larger population in that (often geographic) area.
What are the major barriers to equity and access related to Public Interest Technology, as your institution and project team undertake the proposed project?

In what ways will your project’s objectives and method address those barriers?

Describe how the proposed project will conduct recruitment, engagement, and retention activities of historically excluded communities.

What sources of bias is this project subject to? What mitigation strategies will be employed to combat bias and generate more equitable outcomes?

What record do you have of serving ethnically, racially, socioeconomically diverse, and underrepresented populations? If not yet in place, describe how you would use this funding to engage, serve, and collaborate with those populations in ways that are informed by best practices.

Q1 Please define or describe the target community of your project (250 word maximum) *

Limit: 250 words

Q2 Please describe how the demographics of those benefiting from the project compare to the demographics of the larger population in that (often geographic) area. (500 word limit) *

Limit: 500 words

Please describe how the demographics of those benefiting from the project compare to the demographics of the larger population in that (often geographic) area

- What are the major barriers to equity and access related to Public Interest Technology, as your institution and project team undertake the proposed project?
- In what ways will your project’s objectives and method address those barriers?
- Describe how the proposed project will conduct recruitment, engagement, and retention activities of historically excluded communities.

- What record do you have of serving ethnically, racially, socioeconomically diverse and underrepresented populations? If not yet in place, describe how you would use this funding to engage, serve, and collaborate with those populations in ways that are informed by best practices.
DEMOGRAPHIC INFORMATION

Providing demographic information is designed to help PIT-UN measure our intended audiences and our commitment to eliminating discrimination and promoting justice, equity, diversity, and inclusion in all its practices. PIT-UN invites applicants to voluntarily disclose certain characteristics about themselves and their project team so the organization can measure its progress and strengthen its impacts on equity, diversity, and inclusion. We value transparency and will use this information internally only to seek out funding opportunities. If you are interested in a conversation or further discussion, feel free to contact us.

Please share the following information about your project's intended project participants:

Please estimate the percentage of non-majority or underrepresented project participants *

%  

Please estimate the number of project participants that identify as:

QUALIFICATION AND CAPACITY

Please provide an answer for the following questions: (300-word limit)

- What experience or prior work among project team members demonstrates deep knowledge of the field of public interest technology and/or other fields relevant for your proposed project?
- Why are you and your institution well positioned to undertake this project?

Please provide an answer for the following questions: What experience or prior work among project team members demonstrates deep knowledge of the field of public interest technology and/or other fields relevant for your proposed project? Why are you and your institution well positioned to undertake this project? (300 word limit) *

Limit: 300 words

INSTITUTIONAL SUPPORT AND BUDGET DESCRIPTION

In this first section, answer the questions regarding funding.

- Identify the number of years this project has received funding.

You will also be required to input the total budgeted amount (revenue) and the total expenses for the major categories (e.g., salaries, travel, community support) in the proposed budget from the line items in the NVF Budget Template (https://pitcases.org/wp-content/uploads/2022/03/2022-NVF-Project-Budget-Template.xlsx).

In the second section, answer the questions below depending on the type of project (new or expansion and scale) and the amount of funding requested.

New Projects

For proposals requesting up to $90,000 (Tranche 1)
- **Summarize (300-word limit)**
  - The major revenue categories: (e.g., PIT-UN Challenge grant funding, in-kind donations or support) and how those donations in the budget are accounted for in the Revenue section of the spreadsheet.
  - Major expense categories (e.g., salaries, travel, community support) in the proposed budget.
  - Describe how the project budget supports the institutionalization of the project after the grant period ends.
  - How has your university or institution demonstrated buy-in for your project that will help sustain the project’s impact? (200-word limit)

*For proposals requesting between $90,001 and $145,000 (Tranche 2)*

1. **Summarize (300-word limit)**
   1. The major revenue categories: (e.g., PIT-UN Challenge grant funding, in-kind donations, or support) and how those donations in the budget are accounted for in the Revenue section of the spreadsheet.
   2. Major expense categories (e.g., salaries, travel, community support) in the proposed budget.
   3. Describe how the project budget supports the institutionalization of the project after the grant period ends.

2. What specific commitments do you have from your university or institution to support your project and sustain its impact? (200-word limit)

*Note: If the required institutional in-kind funding is less than 50%, the proposal will not be considered.*

**Expansion and Scale Projects**

*For proposals requesting up to $90,000 (Tranche 1)*

1. **Summarize (300-word limit)**
   1. The major revenue categories: (e.g., PIT-UN Challenge grant funding, in-kind donations or support) and how those donations in the budget are accounted for in the Revenue section of the spreadsheet.
   2. Major expense categories (e.g., salaries, travel, community support) in the proposed budget. Include any meeting expenses (meals, parking reimbursement, stipends), student stipends, or other costs associated with outreach.
   3. Describe how the project budget support plans to institutionalize the project after the grant period ends.

2. How has your university or institution demonstrated buy-in for your project that will help sustain the project’s impact? (200-word limit)

*For proposals requesting between $90,001 and $145,000 (Tranche 2)*

1. **Summarize (300-word limit)**
   1. The major revenue categories: (e.g., PIT-UN Challenge grant funding, in-kind donations, or support) and how those donations in the budget are accounted for in the Revenue section of the spreadsheet.
   2. Major expense categories (e.g., salaries, travel, community support) in the proposed budget. Include any meeting expenses (meals, parking reimbursement, stipends), student stipends, or other costs associated with outreach.
   3. Describe how your university or institution plans to support this project after the grant period ends.
2. What specific commitments do you have from your university or institution to continue your project and sustain its impact?  **(200-word limit)**

Note: If the required institutional in-kind funding is less than 50%, the proposal will not be considered.

In the final section of the Institutional Support and Budget Summary, you will upload a budget following the attached New Venture Fund template (found on [PITcases.org/challenge/RFP APPLICATION FORMS](http://pitcases.org/2022-challenge)) Include any funds that you intend to contribute from your institution or other sources.

Identify if this project has received funding. *

- No Network
- Challenge funding
- One year of funding
- Two years of funding

Total Budgeted amount for the program/project (Total-full budget for the program/project) *

$ [ ] USD

Total Budgeted PIT-UN Funded Budget Request *

$ [ ] USD

Total In-Kind University Funding *

$ [ ] USD

Total In-Kind External University Funding *

$ [ ] USD

Total Budgeted Amount for Salaries *

$ [ ] USD

Total Budgeted Amount for Travel & Conferences *

$ [ ] USD
**BUDGET NARRATIVE**

Please summarize the major expense categories (e.g.: salaries, travel, community support) in the proposed budget. Also, describe how the project budget support plans for institutionalizing the project after the grant period ends. *(300-word limit for budget narrative and 200-word limit for institutionalizing the project at your institution)*

**Total Budgeted Amount for Other Significant Expenditures** *

$ USD

**Total Budgeted Amount for Community Support** *

$ USD

For proposals requesting between $90,001 and $145,000 Summarize: 1. The major revenue categories: (e.g.: PIT-UN Challenge Grant funding, in-kind donations or support, and how the tracked those donations in the budget are accounted for in the Revenue section of the spreadsheet 2. The major expense categories (e.g.: salaries, travel, community support) in the proposed budget. 3. Describe how the project budget support plans for institutionalizing the project after the grant period ends. (300 word limit) *

Note: Understand that if the required institutional in-kind funding is less than 50%, the proposal will not be considered.

For proposals requesting between $90,001 and $145,000--2. What specific commitments do you have from your university or institution to
support your project and sustain its impact? (200 word limit) *

Limit: 200 words

NOTE: Proposals requesting between $90,001 and $145,000, please understand that if the required institutional in-kind funding is less than 50%, the proposal will not be considered.

In the final section of the Institutional Support and Budget Summary, upload your project’s budget using the New Venture Fund budget template.

* 

Upload a file. No files have been attached yet.

Acceptable file types: .xls, .xlsx, .zip

In the final section of the Institutional Support and Budget Summary, upload a budget following the attached New Venture Fund template that can be found on the Pitcases website PITcases.org within the Network Challenge RFP Forms section (https://pitcases.org/active-network-challenge/). Include any funds that are contributed from your institution or other sources.

SUPPLEMENTAL INFORMATION:
PRINCIPAL INVESTIGATOR RELEVANT WORK

Please include a link or upload the CV of the principal investigator and any previous relevant work (e.g., previous publications) Please include a one sentence description of what is included in the link.

example.com
If you included a link above, please describe any previous relevant work referenced in the link above (200 word limit)

Upload PI CV

Select up to 10 files to attach. No files have been attached yet. You may add 10 more files.

Due Diligence Document Uploads

If your institution was awarded grant funding in the Year 5 (2023) Network Challenge, you do not have to upload an IRS Form 990, audited financials, letter of determination, and a list of board of directors/trustees.

If your institution was awarded grant funding in 2023, upload:

- List of board of directors or board of trustees
- List of the main staff for the project

If your institution was NOT awarded grant funding in 2023, upload:

- Proof of legal status/IRS Letter of Determination
- Most recent audited financials* Upload audited financials for 2021 or 2022. If no audited financials are available for those years, you will need to provide an explanation for the missing documents.
- IRS Form 990
- List of board of directors or board of trustees
- List of main staff for the project

Our institution was awarded grant funding in the Year 4-2022 PIT-UN Network Challenge. *

- Yes-Our institution was awarded grant funding in 2023
- No-Our institution was NOT awarded grant funding in 2023

Proof of legal status/IRS Letter of Determination:* *
Are you able to upload your institution’s most recent audited financial documents? *

- Yes, I will upload financial documents from either 2022 or 2023
- No

Most recent audited financials from 2022 or 2023 *

Before you hit SUBMIT

Please make sure that you have invited the Principal Investigator as a collaborator to this application AND they have accepted the invitation. If the Principal Investigator is not accepted their invitation to this application and you submit the application, there is no way for our teams to communicate with the Principal Investigator throughout the grant award process.

To review how to add the Principal Investigator:

In the upper right-hand corner of this application, you will see a link Invite Collaborators. Click on Invite Collaborators. A Dialog box will appear, asking you to enter the email addresses of your collaborators. Enter those addresses, then click Invite.

Invited collaborators will receive an email, letting them know you’ve invited them to collaborate on a draft submission using Submittable.

After you’ve sent invitations to collaborate, you can click on the Invite Collaborators link again anytime to see the status of your invitations. In the row for each invitee who has not yet accepted their invitation, you will see a Pending indication. There will also be a trash can next to each person’s name so that the Submission Owner can remove anyone that they no longer want to collaborate on the submission. The Submission Owner is always the person who has sent invitations and will be the only user who can submit the application after it is completed by the group. Collaborators will be able to contribute responses and save drafts at any time.

☐ I confirm I have invited the Principal Investigator to be a collaborator on this application.

Before checking this box, make sure you have invited the project's Principle Investigator to this application.
I confirm the Principal Investigator has accepted the invitation to * be a collaborator on this application and has accessed the application.

Before checking this box, make sure the Principal Investigator has accepted the collaborator invitation and has OPENED this application.
