Project Title--Unique Identifier for this Grant Application *

Limit: 300 characters

The answer to the next question will be used to create a unique identifier for this submission and project. The unique identifier in this step will follow the application form submission through grant management and project reporting if accepted.

We need all submissions to follow the same naming convention, Member Institution code from the chart below **HYPEN** Type of submission (N=new, E=Expansion) **AND** if the project also is a (DS=Data Science**) **SPACE** Submission Name.

You MUST start your proposal with the recognized 3 or 4-letter institution abbreviation associated with your institution (view the codes in the chart below)

EXAMPLES OF PROPOSAL - PROJECT NAMING CONVENTION

- New Project Example: My university is the Colorado Community College System (CCCS)
 and this will be my first submission of a data project titled *Data Anomalies in Justice*. My
 proposal submission name would start with CCCS-N Data Anomalies in Justice.
- New Data Science Project Example: My university is the University of Mississippi (UMIS)
 and this will be my first submission of a new project for my institution the title Exploration of
 Al Data in PIT. My proposal submission name would be UMIS-NDS Exploration of Al Data
 in PIT
- Expansion/Scale Project Example: My university is the University of New Mexico (UNM) and this will be my third submission that is an expansion of a previous project with the title

Fellowships in PIT Environmental Justice. My proposal submission name would be **UNM-E** Fellowships in PIT Environmental Justice.

**The difference between data projects and data science projects:

- **Data projects** use data to solve problems and spot trends. They work with the data as a snapshot of what exists now. Data analysis collects, stores, and maintains data and analyzes results.
- **Data science projects** use algorithms and machine learning to improve the ways that data supports organizational goals. Data scientists model data to make predictions, identify opportunities, and support strategies. They use data to understand the future.

I confirm I have entered the Project Name according to the form		
requested		

Before checking this box, make sure the project is named according to the format listed above.

Add the Principal Investigator to this Application within the Submittable Platform

We ask that you please add the <u>Principal Investigator to this application</u> (https://submittable.help/en/articles/3654810-how-can-i-invite-people-to-collaborate-with-me-on-asubmission) as a Collaborator so we can maintain contact with them throughout the grant application and throughout the grant period. Follow the directions below to add the Principal Investigator to this application.

In the upper right-hand corner of this application, you will see a link Invite Collaborators. Click on Invite Collaborators. A Dialog box will appear, asking you to enter the email addresses of your collaborators. Enter those addresses, then click Invite.

Invited collaborators will receive an email, letting them know you've invited them to collaborate on a draft submission using Submittable.

After you've sent invitations to collaborate, you can click on the **Invite Collaborators** link again anytime to see the status of your invitations. In the row for each invitee who has not yet accepted their invitation, you will see a **Pending** indication. There will also be a trash can next to each person's name so that the **Submission Owner** can remove anyone that they no longer want to collaborate on the submission.

The **Submission Owner** is always the person who has sent invitations and will be the only user who can submit the application after it is completed by the group. **Collaborators** will be able to contribute responses and save drafts at any time.

Please select the Principal Investigator's Institution (This will also be the institution that will be considered the Fiscal Manager for the grant and

MUST be a PIT-UN member in good standing) * Select... A person may be listed as the Principal Investigator (PI) on only one Challenge application, but individuals may be listed as collaborators on multiple applications. Please add the primary Principal Investigator's name * First Name Last Name A person may be listed as the Principal Investigator (PI) on only one Challenge application, but individuals may be listed as collaborators on multiple applications. Acceptable file types: .doc, .docx, .odt, .pdf, .rtf, .txt, .wpd, .wpf, .epub
NVF Child Safeguarding Policy Information Sheet can be found on the PITcases.org site (http://pitcases.org/2022-challenge)
⚠ I acknowledge that I have uploaded the NVF Child Safeguarding Policy Information sheet. *
Yes
Will any part of this grant funding be used to conduct lobbying as defined by federal tax law? *
O Yes No

Proposals that received funding from the PIT-UN Challenge in 2019 or 2020 and have received two (2) additional years of funding are not eligible to apply for additional funding.

Proposals that received funding from the PIT-UN Challenge and have only received one year of additional funding in either 2020, 2021 or 2022 may apply for additional funding this year to continue and/or scale their project.

Proposals with a Significant Data Science Component

The Challenge Fund recognizes that proposals for projects with **significant data collection and interpretation** will be characterized as Data Science projects that may require expert evaluation/review. Therefore, if your proposal falls under the definition of Data Science, you will be asked to answer an additional set of questions as indicated.

Note Data Science projects will not receive special or additional consideration and will not be prioritized above other

PARTNERSHIP

In this section, you are asked to list partners that you have formally engaged or plan to formally engage to undertake this project.

In a partnership, there is a **formal relationship defined by different partnership arrangements** (MOU, MOA, Letters of Commitment) where there is more of a co-mingling of resources. Individuals retain their authority, and a separate structure is developed to oversee or manage the engagement. Note that you should upload letters of commitment from all named partners with this application. (There are six fields to list partners.)

What is the difference between a partner and a collaborator? In a partnership, there is a formal relationship where there is more of a co-mingling of resources defined by different partnership arrangements (MOU, MOA, Letters of Commitment). Principal investigators retain their authority and maintain a separate structure to oversee or manage the engagement with specific or identified contributions.

A collaborator has an **informal relationship** with an agreed-upon way to make decisions yet operates independently. Collaborators retain their autonomy and have complete control over the individual resources they bring to the table.

Questions to answer for each partner:

entity. See "Evaluation Criteria" for guidance on meaningful and equitable partnerships.
 (200-word limit) Describe why the partner's involvement is essential to the project and how the partnership will operate, including division of work, role of principal investigators, and allocation of funds. (100-word limit)
Does your proposal have or will have partners? *
Yes, we have formally engaged one or more PIT-UN institution(s) as partners for this project. (1 input field so combine information on each PIT-UN partnership)
Yes, we have formally engaged non-PIT-UN education institution(s) as partners for this project. (1 input field so combine information on each educational partnership)
Yes, we have formally engaged non-profit, private or governmental partners for this project. (Field limited to 3 entries)
No, this proposal has not formally engaged partners or will not engage partners in this project.
This question is multiple selection. If you select more than one type of partner, you will fill out information on each type of partner. You will also be required to submit letters of commitment, MOA, or MOUs for each partner. Partners listed with out letters of commitment, MOA or MOUs will be evaluated the same as those proposals that have not engaged partners in the project. To ensure that the application isn't too laborious in detailing partners
Please list the non-PIT-UN educational institution partner(s) you have formally engaged for this project. *
Please add the partner's point of contact name
First Name
Last Name

• Describe how you have cultivated a meaningful and equitable relationship with the partner

Is the institutional partner a Minority Serving Institution or a Historically
Black College or University? Or does the partner organization identify as
part of a historically disadvantaged or underrepresented community. *
○ Yes ○ No
Describe how you have cultivated a meaningful and equitable relationship with the institutional partner(s) entity. If this project includes a partnership with one or more additional universities, please describe how the partnership will operate, including division of work, role of Principal Investigators, and allocation of funds. (300 word limit) See "Evaluation Criteria" for guidance on meaningful and equitable partnerships. *
 Brief description of the partner institution's mission and work Description of the role the partner will play on the project and how the partnership would enhance or expand the impact of the project A list of deliverables that the partner institution will be responsible for (if applicable) The amount of monetary support the partner will provide (if applicable) The type and value of any in-kind support the partner institution will provide (staff time, facility space, supplies, equipment)
Describe why this partner's involvement is essential to the project, how the partnership will operate, including division of work, role of Principal Investigators, and allocation of funds.* (100 word limit) *
Partnership letter of commitment, MOU, MOAetc. (maximum upload of 4 files) * Choose File
Select up to 4 files to attach. No files have been attached yet. You may add 4 more files.
Acceptable file types: .csv, .doc, .docx, .odt, .pdf, .rtf, .txt, .wpd, .wpf, .gif, .jpg, .jpeg, .png, .svg, .tif,

PROJECT COLLABORATORS

What is the difference between a collaborator and a partner?

A collaborator has an **informal relationship** with an agreed-upon way to make decisions yet operates independently. Collaborators retain their autonomy and have complete control over the individual resources they bring to the table.

In a partnership, there is a **formal relationship defined by different partnership arrangements (MOU, MOA, Letters of Commitment)** where there is more of a co-mingling of resources. Individuals retain their authority and a separate structure is developed to oversee or manage the engagement.

A person may be listed as the Principal Investigator (PI) on only one Challenge application, but individuals may be listed as collaborators on multiple applications.

Proposals that are a collaboration between two or more universities should submit one single application, explaining the nature of the collaboration in their application.

Ooes this propos	al have any collaborators? *

NOT a Data Science project a Data Science project

Proposals with a Significant Data Science Component

The Challenge Fund recognizes that proposals for projects with significant data research components and/or projects that will involve the collection and interpretation of data characterized as a Data Science project may require expert evaluation/review. Therefore, if your

proposal falls under the definition of Data Science you will be asked to answer an additional set of questions as indicated.

Note: Data Science projects will not receive special or additional consideration and will not be prioritized above other applications.

IMPACT

In this section, you will be asked to describe the rationale for the project including the measurable impact on the participants and PIT. That is, please explain how the project appears likely to meaningfully advance the field of Public Interest Technology and further the goals stated in this RFP. It will be helpful to list the assumptions the project is making about its work, its prioritized activities, and its intended impact over time.

JUSTICE, EQUITY, DIVERSITY, AND INCLUSION

You will be asked to answer the following questions to the fullest extent you are able.

Question 1: Please define or describe the target community of your project (250-word maximum)

Question 2: Please describe how the demographics of those benefiting from the project compared to the demographics of the larger population in that (often geographic) area.

- What are the major barriers to equity and access related to Public Interest Technology, as your institution and project team undertake the proposed project?
- In what ways will your project's objectives and method address those barriers?

- Describe how the proposed project will conduct recruitment, engagement, and retention activities of historically excluded communities.
- What sources of bias is this project subject to? What mitigation strategies will be employed to combat bias and generate more equitable outcomes?
- What record does the project team demonstrate the ability to serve ethnically, racially, socioeconomically diverse, and underrepresented populations, perhaps supported by an actionable plan informed by best practices to use this funding to engage and serve these populations that are informed by best practices.
- Q1 Please define or describe the target community of your project (250 word maximum) *

DEMOGRAPHIC INFORMATION

Providing demographic information is designed to help PIT-UN measure our intended audiences and our commitment to promoting justice, equity, diversity, and inclusion in all its practices. PIT-UN invites applicants to voluntarily disclose certain characteristics about themselves and their project team so the organization can measure its progress and strengthen its impacts on historically disadvantaged or underrepresented communities. We value transparency and will use this information internally only to seek out funding opportunities. If you are interested in a conversation or further discussion, feel free to contact us.

Please share the following information about your project's intended project participants:					
Please estimate the percentage of non-majority or underrepresented project participants *					
Please estimate the number of project participants that identify as:					
Estimated number of project participants that identify as American Indian or Alaskan Native					
Estimated number of project participants that identify as Asian					
Estimated number of project participants that identify as Black or African American					

Estimated number of project participants that identify as Hispanic or
Latino or LatinX
Estimated number of project participants that identify as Native Hawaiian or other Pacific Islander
Estimated number of project participants that identify as White:
Estimated number of project participants that identify as two or more races
Estimated number of project participants that prefer to Self-describe

QUALIFICATION AND CAPACITY

Please provide an answer for the following questions: (300-word limit)

- What experience or prior work among project team members demonstrates deep knowledge of the field of public interest technology and/or other fields relevant for your proposed project?
- Why are you and your institution well positioned to undertake this project?

Please provide an answer for the following questions: What experience or prior work among project team members demonstrates deep knowledge of the field of public interest technology and/or other fields relevant for you proposed project? Why are you and your institution well positioned to undertake this project? (300 word limit) *
Limit: 300 word

INSTITUTIONAL SUPPORT AND BUDGET DESCRIPTION

In this first section, input the total budgeted amount (revenue) and the total expenses for the major categories (e.g., salaries, travel, community support) in the proposed budget from the line items in the completed **NVF Budget Template** (https://pitcases.org/wp-content/uploads/2022/03/2022-NVF-Project-Budget-Template.xlsx).

In the second section, answer the questions below depending on the type of project (new or expansion and scale) and the amount of funding requested.

In the last section, you will upload the completed NVF Budget Template

New Projects

For proposals requesting up to \$90,000 (Tranche 1)

• Summarize (300-word limit)

- The major revenue categories: (e.g., PIT-UN Challenge grant funding, in-kind donations or support) and how those donations in the budget are accounted for in the Revenue section of the spreadsheet.
- Major expense categories (e.g., salaries, travel, community support) in the proposed budget.
- Describe how the project budget supports the institutionalization of the project after the grant period ends.
- How has your university or institution demonstrated buy-in for your project that will help sustain the project's impact? (200-word limit)

For proposals requesting between \$90,001 and \$145,000 (Tranche 2)

1. Summarize (300-word limit)

- 1. The major revenue categories: (e.g., PIT-UN Challenge grant funding, in-kind donations, or support) and how those donations in the budget are accounted for in the Revenue section of the spreadsheet.
- 2. Major expense categories (e.g., salaries, travel, community support) in the proposed budget.
- 3. Describe how the project budget supports the institutionalization of the project after the grant period ends.
- 2. What specific commitments do you have from your university or institution to support your project and sustain its impact? **(200-word limit)**

Note: If the required institutional in-kind funding is less than 50%, the proposal will not be considered.

Expansion and Scale Projects

For proposals requesting up to \$90,000 (Tranche 1)

1. Summarize (300-word limit)

- 1. The major revenue categories: (e.g., PIT-UN Challenge grant funding, in-kind donations or support) and how those donations in the budget are accounted for in the Revenue section of the spreadsheet.
- Major expense categories (e.g., salaries, travel, community support) in the proposed budget. Include any meeting expenses (meals, parking reimbursement, stipends), student stipends, or other costs associated with outreach
- 3. Describe how the project budget support plans to institutionalize the project after the grant period ends.
- 2. How has your university or institution demonstrated buy-in for your project that will help sustain the project's impact? (200-word limit)

For proposals requesting between \$90,001 and \$145,000 (Tranche 2)

1. Summarize (300-word limit)

- 1. The major revenue categories: (e.g., PIT-UN Challenge grant funding, in-kind donations, or support) and how those donations in the budget are accounted for in the Revenue section of the spreadsheet.
- 2. Major expense categories (e.g., salaries, travel, community support) in the proposed budget. Include any meeting expenses (meals, parking reimbursement, stipends), student stipends, or other costs associated with outreach.
- 3. Describe how your university or institution plans to support this project after the grant period ends.
- 2. What specific commitments do you have from your university or institution to continue your project and sustain its impact? (200-word limit)

Note: If the required institutional in-kind funding is less than 50%, the proposal will not be considered.

In the final section of the Institutional Support and Budget Summary, you will upload a budget

<u>AP</u>	PLICATION FORMS	New Venture Fund template (round on <u>PIT cases.org/challenge/RFP</u> ((http://pitcases.org/2022-challenge) Include any funds that you intend to a stitution or other sources.

Due Diligence Document Uploads

If your institution was awarded grant funding in the Year 5 (2023) Network Challenge, you do not have to upload an IRS Form 990, audited financials, letter of determination, and a list of board of directors/trustees.

If your institution was awarded grant funding in 2023, upload:

- · List of board of directors or board of trustees
- · List of the main staff for the project

If your institution was was NOT awarded grant funding in 2023, upload:

- Proof of legal status/IRS Letter of Determination
- Most recent audited financials* Upload audited financials for 2021 or 2022. If no audited financials are available for those years, you will need to provide an explanation for the missing documents.
- IRS Form 990
- · List of board of directors or board of trustees
- · List of main staff for the project

Our institution was awarded grant funding in the Year 4-2022 PIT-UN Network Challenge. *

Yes-Our institution was awarded grant funding in 2023
No-Our institution was NOT awarded grant funding in 2023

Before you hit SUBMIT

Please make sure that you have invited the Principal Investigator as a collaborator to this application AND they have accepted the invitation. If the Principal Investigator is not accepted their invitation to this application and you submit the application, there is no way for our teams to communicate with the Principal Investigator throughout the grant award process.

To review how to add the Principal Investigator:

In the upper right-hand corner of this application, you will see a link Invite Collaborators. Click on Invite Collaborators. A Dialog box will appear, asking you to enter the email addresses of your collaborators. Enter those addresses, then click Invite. Invited collaborators will receive an email, letting them know you've invited them to collaborate on a draft submission using Submittable. After you've sent invitations to collaborate, you can click on the Invite Collaborators link again anytime to see the status of your invitations. In the row for each invitee who has not yet accepted their invitation, you will see a **Pending** indication. There will also be a trash can next to each person's name so that the Submission Owner can remove anyone that they no longer want to collaborate on the submission. The **Submission Owner** is always the person who has sent invitations and will be the only user who can submit the application after it is completed by the group. Collaborators will be able to contribute responses and save drafts at any time. I confirm I have invited the Principal Investigator to be a collaborator on this application. Before checking this box, make sure you have invited the project's Principle Investigator to this application. I confirm the Principal Investigator has accepted the invitation to be a collaborator on this application and has accessed the application. Before checking this box, make sure the Principal Investigator has accepted the collaborator invitation and has OPENED this application. Save Draft **Submit Form**
